List of issues prior to submission of the second periodic report of Ghana*

The Committee against Torture, at its thirty-eighth session (A/62/44, paras. 23 and 24), established an optional procedure which consists in the preparation and adoption of a list of issues to be transmitted to the State party concerned prior to the submission of its periodic report. The replies of the State party to this list of issues will constitute its report under article 19 of the Convention.

Specific information on the implementation of articles 1-16 of the Convention, including with regard to the Committee's previous recommendations

Articles 1 and 4

1. With reference to the Committee's previous concluding observations (see CAT/C/GHA/CO/1, para. 9),¹ please provide detailed information on the measures taken to adopt a definition of torture in domestic penal law that is consistent with article 1 of the Convention and that includes appropriate penalties, taking into account the grave nature of such acts.²

* Adopted by the Committee at its fifty-sixth session (9 November-9 December 2015).

¹ Unless otherwise indicated, paragraph numbers in parentheses refer to the previous concluding observations adopted by the Committee.

² See also A/HRC/25/60/Add.1, para. 9.

Article 2³

2. In the light of the Committee's previous concluding observations (para. 10), please provide information on the steps taken, and the procedures in place, to ensure that all persons deprived of their liberty are:

(a) Promptly brought before a judge and guaranteed the possibility to challenge effectively and expeditiously the lawfulness of their interrogation;⁴

(b) Guaranteed access to a lawyer of their choice (please provide information on any measures that have been adopted to expand the number of legal aid defence lawyers);⁵

(c) Informed, in a language that they understand, of the reasons for their arrest and the nature of any charges brought against them;

3. Please provide information on the measures taken to maintain the privacy and confidentiality of medical examinations of detainees (para. 10 (e)).

With reference to the previous concluding observations (para. 14), please describe the measures taken to ensure that the Commission on Human Rights and Administrative Justice operates in conformity with the principles relating to the status of national institutions for the promotion and protection of human rights (the Paris Principles), so as to guarantee its operational independence, and that adequate resources are assigned to it.⁶

6. Concerning the previous concluding observations (para. 22), please provide information, disaggregated by age and ethnicity or nationality of the victims, on the number of complaints, investigations, prosecutions, convictions and sentences handed down in cases of gender-based violence since the consideration of the initial report of Ghana in 2011. Please also provide information on the measures, including legislative measures, adopted to address concerns regarding domestic violence and marital rape.⁷

7. As requested in the Committee's previous concluding observations (paras. 23 and 26), please provide up-to-date statistics on complaints, investigations, prosecutions, convictions and sentences imposed on perpetrators of criminal acts related to harmful traditional practices, and on the assistance and compensation afforded to victims. In addition, please indicate the measures that the State party has taken to strengthen its efforts

³ The issues raised under article 2 could also touch on issues raised under other articles of the Convention, including article 16. As stated in paragraph 3 of the Committee's general comment No. 2 (2007) on the implementation of article 2 by States parties, the obligation to prevent torture in article 2 is wide-ranging. The obligations to prevent torture and other cruel, inhuman or degrading treatment or punishment under article 16 (1) are indivisible, interdependent and interrelated. The obligation to prevent ill-treatment in practice overlaps with and is largely congruent with the obligation to prevent torture. In practice, the definitional threshold between ill-treatment and torture is often not clear. See also chapter V of the same general comment.
